Thank you for your support of the Vietnam program of EMAS.

The trip in July was successful with the participation of many medical and health care students. It is important to inspire our young people to give of themselves to others.

Pray for the team being assembled for Feb., our partners in Vietnam who continue to work diligently to meet the needs identified by the summer team and plan for the winter team.

Information about EMAS and this program can be found on our website at www.emascanada.org.

Thank you for your interest and support

Joyfully serving Him,

Dear Mr. Trieu,

It was very nice to speak with you on the phone today. Thank you for your generous gift of \$1,000 to heal children's smiles around the world, and for your support over the years!

Enclosed is a photo of 11-year-old Iris. She returned to school in rural Nicaragua with a proud smile on her face. A farmer's daughter, Iris spent her childhood hiding from strangers, living in quiet shame, invisible and hurting. Her donor-funded surgery was a miracle: Her mother reports that Iris is a completely different girl now, full of joy and hope for her future.

As you may know, many children around the world born with facial deformities like cleft lip and palate avoid going to school, where they routinely face harassment and bullying. They miss out on vital education and socialization. Thanks to you, *children just like Iris* are given new lives with a brighter tomorrow through the transformative surgeries that Operation Smile performs in communities across the globe. In fact, you're enabling four missions in Nicaragua alone in the first half of 2019 (February, March, April and June).

We dream of a world where no child suffers from lack of access to safe surgical care, and you've brought us closer to realizing this hopeful vision with your kindness.

Thank you again, Mr. Trieu.

Sincerely,

Ken Butland, CFRE
Senior Personal Giving Officer
